WORK EXPERIENCE

Gold Fellow | Contract — JUL 2023 - Present
The ROOM | Addis Ababa

Proud to be an ALX Tech program top 5% graduate and esteemed Gold Fellow at The ROOM where I have access to mentorship, coaching and Lifelong learning opportunities as well as Infrastructure support all designed to enable me accelerate my career.

Back-end Developer | Intern — JUL 2023 - Present
Eskalate | Addis Ababa, Ethiopia

As a software engineering intern at Esklate, I am currently in the introductory phase of my role. In this position, I am gaining valuable experience and knowledge in various aspects of software engineering. I am eager to contribute my technical expertise and continue learning from experienced professionals in the field.
Front-end Developer | Freelance — MAY 2020 - JUN 2020
Habtamu Coffee Inc. | Addis Ababa Ethiopia

As a frontend web developer for Habatamu Coffee Inc., I leveraged my design skills and expertise in HTML, CSS, and JavaScript to create a highly intuitive and interactive webpage for the organization's main website. With meticulous attention to detail, I crafted visually appealing user interfaces that enhanced the overall user experience.

PROJECTS

Holberton - ALX projects   **FEB 2022 - MAR 2023**

I have completed several projects covering a wide range of topics, including C programming, web development, algorithms, data structures, DevOps, and more. These projects have allowed me to gain hands-on experience and deepen my understanding of these areas.

Fleet Managment System   **JUN 2023 - Present**

I have been actively involved in the development and implementation of an ongoing fleet management system project for my university. In this role, I have collaborated with a team of developers to design and create a robust and user-friendly system that effectively tracks and manages the university's fleet of vehicles.

A2SV Blog App   **AUG 2023**

Developed back-end systems for The A2SV internal blog application using .NET Core and Entity Framework Core. Leveraged .NET Core best practices including dependency injection, logging, and configuration. Gained hands-on experience with GIT version control through feature branch workflow. Participated in code reviews, sprint planning, and daily standups to meet development goals and deadlines.

Zenith Work   **JUN 2023**

I participated in the internal hackathon hosted by African to Silicon Valley, where I took on the role of a backend developer for a challenging project. Leveraging my strong technical skills and problem-solving mindset, I successfully contributed to the development and implementation of the project. Through effective collaboration and communication with my team members
